Parent's View

School has contributed immensely to the growth and development of my child. Various competitions, special assemblies were conducted which has helped to boost the confidence and enhanced her personality. All the teachers are very cooperative and helpful. They not only bring out the best from the students but teach them valuable life skills too like communication, compassion and presentation. Teachers motivated her to do better and help her achieve life goals. I believe that the school has played a significant role in the development of my daughter.

Student's View

Time flies so fast. Spending 14 years with school, the journey has been phenomenal. Nur to class 12th, I have experienced my growth physically, mentally as well as emotionally. Looking back, it seems like the school grew with me too. From making constant improvements to do everything to provide the best to its students, it has come a long way. It feels like a joint journey of both the school and the students towards a common goal i.e. providing and gaining the best knowledge. The school has the best teachers who taught the students like their own. I feel overwhelmed to be a part of our school and I wish for the school to reach greater heights because it will make me feel warm at heart and very proud as its student. It provided me immense memories which I will keep on cherishing forever. Unforgettable Journey!!

Parents are a beacon of a child's life. They lay the foundation for children, nurture and equip them with the skills that are necessary throughout life. World Parents Day was celebrated by RPM Group of Schools on 24th July, 2022. Parents nurture their children by making countless and selfless sacrifices to ensure their growth. On World Parents Day, children express their gratitude to their parents for all that they have done for them. Really, our relationship with our parents is the most important and true bond that most of us will ever have, and our parents' dedication towards us is respected and cherished on this day. Those who have a friendship with their parents are able to have a healthy relationship based on trust and respect rather than authority or strict guardianship. It is truly a blessing to have good parents. Children have participated in so many activities such as Poster Making, Card for parents, Recitation of poem, Creating Hand Print Memory, preparing Memory Book, Family breakfast, making Thank You Card for parents. Spirituality Removes The Blindfold & Dares You To See For Yourself !!

In today's fast paced technological age, we rarely get time for introspection. Technology has equipped us with abundance of information and knowledge. But somewhere deep inside, we are always found waging an unending war of wanting more and missing out on our real happiness and peace. Our school always believes in developing a deeper understanding of inner self. Meditation is the best way to connect self and helps in reducing stress and knowing more about our inner strength. So to make our students acquaint with the eternal truth and empower them to reach their higher consciousness, a seminar on Spiritual Awakening was conducted by the teachers. The teachers had an interactive session with the students and they taught them the benefits of meditation and its significance in a student's life.
